

Using Fetch to Upload Files To The caweb Server

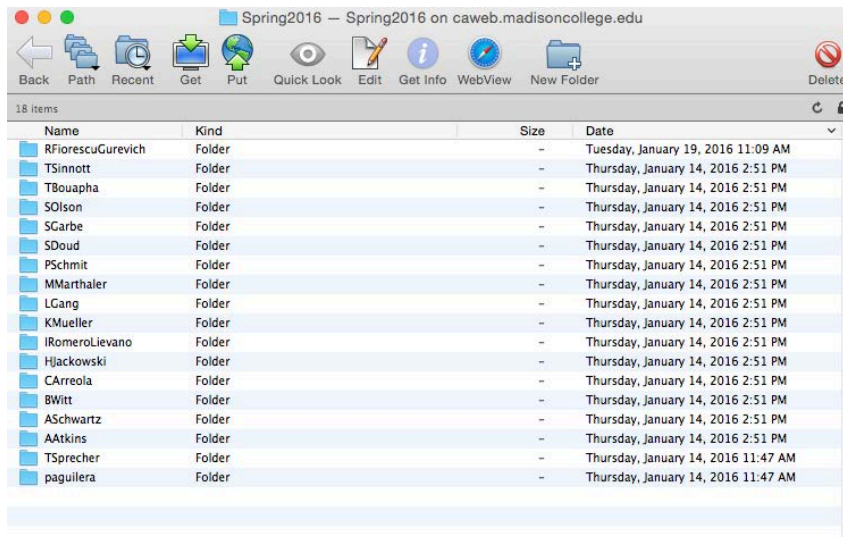

Launch Fetch (the little dog)

Fetch is a ftp (file transfer protocol) software. There are many other free options that can be found on-line.

Fill in to match.

PASSWORD: Test1234@9

Choose the folder with YOUR first initial and last name.

Double click to open the folder with YOUR NAME. To download files, drag YOUR files to the desktop or your external drive.
